PHP Developer

We are the team of 30 + top tech professionals with expertise and knowledge to handle full life-cycle product development. Always eager for top tech innovations, creative and passionate for quality software development, we help our partners to improve or build their IT business.

We are growing constantly and expanding our team with experienced software engineers. As a part of agile team you will get your hands on business application made to deliver best experience to its users in Scandinavia. You will have opportunity to work on complex app with the challenging business logic and to develop new feature and functionalities by using the latest technologies.

WE WOULD APPRECIATE THE FOLLOWING SKILLS:

- Experienced with our stack - PHP, Symfony2, JS, MySQL, HTML, GIT, Apache.
- Experienced with software design patterns
- Educated in the IT area with the good foundation in OOP and software architecture
- Fluent in English and understanding of Agile development
- Analytical, problem solver, responsible
- Able to take the initiative, to be productive and efficient
- Before all — a team mate

WE CAN CONTRIBUTE TO YOUR HAPPINESS, SUCCESS AND DEVELOPMENT:

- By providing you work-life balance that we are very proud of
- With the competitive salary and private health insurance
- Making a pleasant but yet dynamic working environment
- Offering participation in challenging projects and opportunity to work with skilled team members
- Staying healthy and fit with sports activities and healthy seasonal fruits and drinks
- By having fun at company events and team building activities

If you are interested in this challenging position and you've got the required skills, join our team! Please send us your CV and /or GitHub profile, referring to the job title to the following e-mail address: hr@boutsourcing.com We are looking forward to receive your application.

All applications will be processed in strict confidentiality.
